To whomsoever it may concern

My daughter **Miss MEDHA JHA** who is presently pursuing her undergraduate course at **MANIPAL UNIVERSITY, Manipal, Karnataka** has been accepted as an exchange student at **AARHUS UNIVERSITY, Denmark**. In this connection, I wish to state and undertake that I would be financially supporting her for the duration of her stay in Denmark from January – June, 2017.

I am in service with an Indian Banking Company and have been filing Income Tax returns of over INR 2.5 Million for more than 5 years now. My latest ITR Return and the bank statement for last three months are enclosed supporting the fact that I have the means to support her during her stay in Denmark. The enclosed documents show that I have at my disposal an amount equivalent to Danish student grants (SU) for the period of time covered by the residence permit, with 12 months being the maximum requirement. The monthly amount (2016 level) is DKK 5,941, making the maximum required amount $12 \times 5,941 =$ DKK 71,292 which is equivalent to INR 703451.63.

Kindly take the same into consideration for processing her residence permit.

Yours sincerely,

Dwijendra Nath Jha
